

This has been an eventful week here at the Stillwaters Estates office and so today's blog is all about this and that!

In our once-every-three-years effort to change and test batteries in Medical Alert buttons we traversed the neighborhood, chatted with residents and dashed between showers to get the old batteries out and the new batteries in. We are able to get new batteries in and tested for about half of the neighborhood in four days! Whew!

For the rest of the neighborhood we will be back out in a couple weeks to finish the job. Having monitored medical and fire alarms in each of our homes is part of the value of living in Stillwaters Estates. Monitoring of the security system by Custom Security is part of the monthly maintenance fee paid while living here in Stillwaters. We all hope we don't need it but when you do it is very nice to have that security.

Well, now it is Friday and this blog is all about saying thank you to all of our kind and patient residents who allow this brief intrusion. We appreciate your allowing us to make sure batteries are up-to-date and at the ready for the next four or so years.

THANK YOU!
