

Things are picking up in the home building business for Stillwaters Estates.

We are getting ready to build three more houses and we have people inquiring (quite a bit in fact!) about building a home here. This is great news for the community and great news for Centralia in general. The economy is getting better and this gets reflected in more home buyers.

For those of us who live here in Stillwaters it is no surprise that homebuyers are looking to buy or build here. Right now we have 13 lots available – three with foundations in the ground and 10 lots with a choice of house plans. All of these current lots for sale are on Stillwaters Avenue, Mark Twain Drive and Shakespeare Drive. Sixteen lots have been set aside for the next phase of building.

I thought it would be interesting to share with you one of the latest home plans available to build – it's called a Stratford. Here is the floor plan:

Stratford Design

This is a nice alternative to the popular Chandler design, in that it has an open kitchen to great room. At 1600 square feet it has two bedrooms plus a den and separate laundry area. The first of this new design is currently being built on Shakespeare Drive.

You can look at all the available plans by clicking [HERE](#). This takes you to the Stillwaters website under a section called *New Construction*. It's kind of fun to

stay current on all the latest plans for our neighborhood!
