

Whew! It's been a busy week here at Stillwaters Estates!

The housing market is so tight that we don't currently have any apartments for rent or houses on the resale market. We still have had a steady stream of folks coming in to find out about renting or buying a home and this keeps us all very busy here in the office.

We ARE building homes and I thought I would include here a few notes on the home plans that are available to build on lots here in Stillwaters. There are still about 30 lots available for construction for those who want to build. See our webpage by clicking [HERE](#) for a picture of each plan.

We have two homes framed and roofed waiting for a buyer to come along and make interior choices.

One is a Fulton:

And the other is a Hartford/Harrington:

With nine floor plans there is a wide range of plan options. It's exciting to see the neighborhood grow as we welcome new neighbors to Shakespeare Drive, Mark Twain Drive and Stillwaters Avenue.

Something else of interest:

It's that time of year again! Renters in my backyard bird house.

Quote of the Week:

Consult not your fears but your hopes and your dreams.

Think not about your frustrations, but about your unfulfilled potential.

Concern yourself not with what you tried and failed in, but with what it is still possible for you to do.

-Pope John XXIII

Happenings this Week:

Weather:

A Dogwood flower up
close.

There is a bit of sunshine in our future! Saturday and Sunday this week are predicted to be dry, with a bit of sun and partially cloudy, but we'll take it. Rain after that but that is our normal April isn't it!
